SALT TRUST'S OPTION ON SEARS' PLANT

The Last Utah Competitor is Removed.

TRUST'S BIG PROFITS

SOME FIGURES ON COST OF PRO-DUCTION.

The Inland Crystal Salt company has ears of this city and the general impres

The chief significance of this deal, if it all prove to be successful, is that it ill dispose of the last independent saltwill dispose of the last independent saturaking plant now coing business on the hores of Great Salt lake. The new commany recently organized in this city has not yet made a move, and representatives of the Inland Crystal company were in yeden last week and bought up all the last on hand there. It is reported here hat there is a movement on in Ogden towart the manufacture of salt on a piece of ground owned by Fred J. Klesel.

Big Profits in Salt.

The salt business in Salt Lake is now considered to be very profitable and it will be a wonder if another company is not organized to enter the field. One of the best posted men in that line in the city yesterday stated that salt can be sold here on board the cars at \$2 a ton. This is allowing \$1 for the sacks, 20 cents for the crude salt, 20 cents for filling and loading loading and loading l Big Profits in Salt.

plans for the jujure had not been settled. PUBLIC WORKS BOARD.—A short meeting of the hoard of public works was held yesterday morning at the bank of Weils, Fargo & Co. The only business transacted was to approve the city engineer's estimate to P. J. Moran in the sum of \$2,341.55 for the special castings assed in the pipe connections at the reservoir. The board's action will be reported to the city council this evening. No action was taken on the bids for wood and iron fencing around the reservoir, for the reason that none of the proposals were complete.

SPECIAL POLICE NAMED.—By reason of the fact that so many unsanitary nuisances are committed in and around the city's reservoir at the head of First South street. Chairman Davis of the council committee on waterwarks yesterday persuaded Chief of Police Hilton to appoint the reservoir watchman a special policeman, with full authority to make circuit of the committee will now make an effort to hurry up the letting of a contract for the erection of the much-needed fence around the reservoir.

MAYOR'S VETO FILED.—In line with the announcement in yesterday's Herald, Mayor Thompson yesterday flied with the city recorder his disapproval of the council's action in agreeing to exchange 4w279 feet of ground Jacing north and west on South Temple and Thirteenth East streets to Ellswerth Daggett for his 33x15 feet on the north side of the new reservoir. The regions given are the same as those stated yesterday in The Herald, but the executive expresses a willingness to accede to an exchange if Mr. Daggett will

Evans' Polygamy Bill Adversely Reported to Senate.

THE ABEL JOHN EVANS bill for the protection of people who live in the plural marriage relation was reported adversely by a majority of the senate judiciary committee yesterday afternoon. The president seemed slightly pained when Secretary Warrum read the report, but his voice was steady as he asked if there were any objections to the adoption of the com-

Senator Tanner entered an objection, without giving any reasons, and Senator Alder moved that consideration of the report be made a special order for Wednesday afternoon at 3 o'clock. Before this order was made Chairman Bennion of the judiciary committee stated that only three other members of the committee were present when the bill was considered. They were Lawrence, Allison and Howell, all of whom signed the report with Ben-

among salt men is that this plant be swallowed up by the trust, as all other independent concerns have been sted. The option given by Mr. Scars is for the payment of \$20,000 on or bear March 15; it also gives Mr. Scars to defend his bill. It is stated that he is saving himself for a great argument on Wednesday and that he hopes to talk a majority of the senate into mis books. m his books.

Mr. Sears' plant includes a four-year case on 220 acres of good salt land just fove Farmington, and his plant for remining and handling the salt. He claims to have a good plant and to have the catacty for handling immense quantities of crude salt. He also claims to have a good trade in salt, a trade made up off the best customers in the state. He professes not to be the least oit anxious whether the trust takes up the option or tot.

Salt Laker's Invention Valued at Two Millions.

THERE WAS EXCITEMENT among a number of Salt Lakers yesterday, including all those who are interested in the smoke consumer recently invented by Hyrum S. Woolley of this city. Mr. Woolley has been in Washington, D. C., for the past month securing patents on his device. Yesterday a telegram was received from him by one of his financial backers here, and this telegram was the cause of the excitement. It stated that the experiments made with the consumer in Washington had been very successful, and that as a result he had been offered \$1,000,000 for a half interest in the patent by Senator Clark and other big financiers in the east.

Those most heavily interested in the invention here are, besides the inventor, Silver Bros., Heber J. Grant, Jerry Langford, N. W. Clayton and D. Woolley of Kanab. The inventor retains a half interest. Next to him the Silver Bros. are the heaviest stockholders. They have already made a number of the machines, and one of these is now working in the Cannon meeting house. It is the determination of the Silver Bros. to sell none of the consumers at all, but to put them out and charge royalties on them.

It is understood here that Mr. Woolley has been successful in securing his patents in Washington, and that on his return from the east arrangements will be made to push the manufacture of the consumer on a large scale. Until his arrival nothing definite will be given out as to the future programme of those interested.
